Moreover, while no representation is made that a specific search of office files or patent office records has been conducted or that no better art exists, the undersigned attorney of record believes that the enclosed art is the closest to the claimed invention (taken in its entirety) of which the undersigned is presently aware, and no art which is closer to the claimed invention (taken in its entirety) has been knowingly withheld.

Except as noted elsewhere herein, and in accordance with 37 C.F.R. §§ 1.97 and 1.98, a copy of each of the listed references or relevant portion thereof is also enclosed.

In accordance with 37 C.F.R. § 1.98(c), all English translations within the possession, custody, control or availability of anyone designated in 37 C.F.R. § 1.56(c) of each non-English reference, if any, are also enclosed.

Statement of Relevance of References Listed
Unaccompanied by English Translation
Under 37 C.F.R. § 1.98(a)(3)

In accordance with 37 C.F.R. § 1.98(a)(3), the following concise explanation of the relevance of each listed reference that is not in the English language and unaccompanied by a translation into English is provided.

As presently understood by the Applicant, the German language reference by Harth W., *Sende- und Empfangsdioden für die Optische Nachrichtentechnik*, B.G. Teubner Stuttgart 1984, is generally concerned with sending and receiving diodes for optical information technology. More particularly, the reference is concerned with laser diodes and optical detectors used in optical transmission systems and applications. At least some of the disclosed lasers employ a GaAs substrate.

Since all other listed references are either in the English language or are accompanied by at least a partial translation into English, no concise explanation of relevance is required for such other references under 37 C.F.R. § 1.98(a)(3).

Statement of References Previously Disclosed
Under 37 C.F.R. § 1.98 (d)

The references listed as numbers 29-31 and 38-45, in the attached USPTO-1449 forms are not enclosed because, under 37 C.F.R. § 198 (d), they were previously cited by or submitted to the Office in application number 09/217,223, filed on December 21, 1998, which is relied upon for an earlier filing date under 35 U.S.C. § 120.

Submission Fee
Under 37 C.F.R. § 1.97(c))

In accordance with 37 C.F.R. § 1.97(c), payment in the amount of \$180.00 [amount in § 1.17(i)(1)] to cover the submission fee is enclosed to secure consideration of the references submitted with this Information Disclosure Statement. Please credit any over payment or charge any additional fees to Deposit Account No. 23-3178 of the undersigned.

Dated this 17th day of June, 2006.

Respectfully submitted,

References Cited by Applicants

While the filing of Information Disclosure Statements is voluntary, the procedure is governed by the guidelines of Section 609 of the Manual of Patent Examining Procedure and 37 C.F.R. §§ 1.97 and 1.98. To be considered a proper Information Disclosure Statement, Form PTO-1449 shall be accompanied by a copy of each listed patent or publication or other item of information and a translation of the pertinent portions of foreign documents (if an existing translation is readily available to the applicant), an explanation of relevance of each reference not in the English language, and should be submitted in a timely manner as set out in MPEP Sec. 609.

Examiners will consider all citations submitted in conformance with 37 C.F.R. § 1.98 and MPEP Sec. 609 and place their initials adjacent the citations in the spaces provided on this form. Examiners will also initial citations not in conformance with the guidelines which may have been considered. A reference may be considered by the Examiner for any reason whether or not the citation is in full conformance with the guidelines. A line will be drawn through a citation if it is not in conformance with the guidelines AND has not been considered. A copy of the submitted form, as reviewed by the Examiner, will be returned to the applicant with the next communication. The original of the form will be entered into the application file.

Each citation initialed by the Examiner will be printed on the issued patent in the same manner as references cited by the Examiner on Form PTO-892.

The reference designations "A1," "A2," etc. (referring to Applicant's reference 1, Applicant's reference 2, etc.) will be used by the Examiner in the same manner as Examiner's reference designations "A," "B," "C," etc. on Office Action Form PTO-1142.
